

REMARKS

The Final Official Action dated August 22, 2008, has been carefully reviewed and the foregoing amendment has been made in response thereto. Prior to entry of the foregoing amendment, claims 1-3 and 6-12 were active in the present application. The specification has been objected to as failing to provide proper antecedent basis for the terminology "computer readable media" recited in claims 10-12. Claims 10-12 stand rejected under 35 U.S.C. §101 as being directed to non-statutory subject matter. The Final Official Action also states that the drawings filed on July 28, 2005 (Figures 10A, 10B, 11A, 11B, and 11C) are not supported by the original specification.

The foregoing amendment requests the cancellation of claims 10-12 to further prosecution of the present application. The objection to the specification and the rejection under 35 U.S.C. §101 are moot in view of the cancellation of claims 10-12.

Applicant respectfully traverses the statement in the Final Official Action that the drawings filed on July 28, 2005 (Figures 10A, 10B, 11A, 11B, and 11C) are not supported by the original specification. Each one of Figures 10A, 10B, 11A, 11B, and 11C is supported by disclosure in the application as originally filed. Specifically, Figures 10A and 10B are disclosed in claim 1 as originally filed; Figures 4, 5, 6A, and 6B; paragraphs [0004], [0025]-[0034] of the specification; pseudo-code on page 7, line 23-page 8, line 12; and example SQL statements in Table 1 on page 9. Figures 11A, 11B, and 11C are disclosed in claim 6 as originally filed; Figures 4, 5, 6A, and 6B; paragraphs [0008]-[0009], [0025]-[0034] of the specification; pseudo-code on page 7, line 23-page 8, line 12; and example SQL statements in Table 1 on page 9.

In view of the foregoing amendments and remarks, it is believed that the application including claim 1-3 and 6-9 is in condition for allowance. Early and favorable action is respectfully requested.

Respectfully submitted,
